Important Information

Risks: As with all equity-based and bond-based investments, the value and the income therefrom can fall as well as rise and you may not get back all the money that you invested. The value of overseas securities will be influenced by the rate of exchange which is used to convert these to sterling. This should therefore be viewed as a medium to long-term investment. Past performance is not a guide to the future. Please be aware that if you decide to cancel, and in the meantime the value of your investment has fallen, you may not receive back the full amount you invested. While recommended investment transactions remain pending, investment markets may rise or fall so there is potential for loss of income or growth. Further, if you cancel your application during a cooling off period, you will receive back the lesser of your application amount and its market value.

The MSCI information may only be used for your internal use, may not be reproduced or disseminated in any form and may not be used as a basis for or a component of any financial instruments or products or indices. None of the MSCI information is intended to constitute investment advice or a recommendation to make (or refrain from making) any kind of investment decision and may not be relied on as such. Historical data and analysis should not be taken as an indication or guarantee of any future performance analysis, forecast or prediction. The MSCI information is provided on an "as is" basis and the user of this information assumes the entire risk of any use made of this information. MSCI, each of its affiliates and each other person involved in or related to compiling, computing or creating any MSCI information (collectively, the "MSCI parties") expressly disclaims all warranties (including, without limitation, any warranties of originality, accuracy, completeness, timeliness, non-infringement, merchantability and fitness for a particular purpose) with respect to this information. Without limiting any of the foregoing, in no event shall any MSCI party have any liability for any direct, indirect, special, incidental, punitive, consequential (including, without limitation, lost profits) or any other damages (www.msci.com).

ESG Performance Warning: It is important to note that in selecting ESG investments, a screening out process has taken place which eliminates many investments potentially providing good financial returns. By reducing the universe of possible investments, the investment performance of ESG portfolios might be less than that potentially produced by selecting from the larger unscreened universe.

Where a new fund is not immediately available on a platform, a switch will be made as soon as it is. On platforms where switches cannot be made, a rebalance will be made on the first of the month following the addition of the fund to the platform.
